Cutting Tweezers

- For particularly demanding precision work: made from high-quality, martensitic hardened steel, tough and highly resistant to corrosion
- Stainless steel with a slim, tapered design for maximum precision when cutting, dissecting and segmenting extremely small objects in tight spaces
- For the electronics industry, as well as repairs and handicrafts
- Mainly used for cutting soft copper, gold or silver wires, as well as magnetic wires
- With extremely hard and sharp oblique cutting nippers
- Also available as an ESD-safe version: with black epoxy resin coating and a surface resistance between 10^4 and 10^9 ohms
- ESD version only: this allows to compensate in a controlled manner the differences in potential between the operator and electronic components
- Stainless steel
